

Project under construction with eight luxury villas with contemporary lines, with areas ranging between 350 and 480m, next to Praia da Luz, a few minutes from the center of Lagos.

This condominium is one of the last plots available in Praia da Luz, with privacy and panoramic sea views.

Standard specifications include a private garden, outdoor terrace and private pool. The heated pool with automatic cover and jacuzzi are standard in some houses and can be added as extras in others. These houses will be built with high standard construction finishes and "Passive house" standards that use the most advanced systems for solar energy and water management, as well as the best insulation technologies, reducing costs and making an eco-friendly house.
